Matthew Saunders

matt.saunders.963@gmail.com | 410-428-3544 | Baltimore, Maryland | linkedin.com/in/mattsaundcs

Education

University of Maryland Global Campus: Bachelor of Science in Computer Science — Expected May 2027
Relevant Coursework: Discrete Structures, Software Development, Advanced Programming, Compiler Theory, Machine Learning, Calculus I - III, Linear Algebra, Differential Equations, Algebraic Structures, Real Analysis, Complex Analysis

Projects

GoDash iOS app: godash.us | Swift, SwiftUI, SwiftData, AVFoundation, Core Motion — February 2024 to Present
A published iOS dash cam app that lets users use multiple apps while also recording with the iPhone camera.
- Records looping dashboard video up to 10 minutes through the windshield using a hands-free phone mount.
- Other features include group trips, dash cam video sharing, crash/hard brake detection, and telemetry overlays.
- Interface employs distraction-free multitasking using half-screen modules for Apple Maps, Apple Music, and podcasts.

Crucible: github.com/mattsaund/crucible | C, C++, Python, CUDA, Vulkan, MLX, Llama — March 2026 to Present
A local LLM toolkit for model fine-tuning, mixture of agent delegation, and iterative self-refinement.
- Users supply or create custom fine-tuned models for specific subjects such as mathematics, physics, and humanities.
- When a user sends a prompt, the delegator model decides which expert model loads, computes, and outputs.
- Models can work on the prompt repeatedly, improving each pass. Full support for CUDA, Vulkan, and MLX runtimes.

Tiny: github.com/mattsaund/tiny | Rust, TUI — June 2026 to Present
An extremely lightweight terminal-based IDE, text editor, and file browser with a project map and plugin support.
- Max installation size of 7.54MB. Supports editing plain text, Markdown files, and 212 programming languages.
- Full configuration for color, window size, key bindings, and syntax highlighting. Has custom Lua plugin support.
- The project map feature displays project contents connected with arrows showing file links like function calls.

Cosmos.js: github.com/mattsaund/cosmos.js | JavaScript, HTML/CSS, Python
An ASCII art generator that generates animated ASCII planets and exports Python and JavaScript for any project.
- Fully hosted on a static site with zero plugins or frameworks. Can be hosted locally. Runs in any browser.
- Uses a ray-cast model to dictate the lighting and shading using a Bourke character ramp. Texturing is random.
- The program exports its own code it's using for the planet preview that can be copied and pasted to any project.

Work Experience

Micro Center: System Sales Associate, Parkville, Maryland — November 2024 to April 2025
- Sold full solution tech packages, including hardware, software, and warranties to individuals and business clients.
- Performed requirements analysis for each client to fit within the system specifications and budget constraints.
- Coordinated with the IT team to allow seamless data transfers, system setups, and custom-built systems.

BMW Group: Client Advisor and Lease Manager, Towson, Maryland — January 2023 to May 2024
- Managed client acquisition, client relations, deal building, and closing of performance and high-end cars.
- Surpassed monthly goal of 12 deals. Maintained a client book of over 100 clients.
- Promoted to lease manager and increased recurring customer lease numbers by over 60% using equity mining tools.

Best Buy: Sales Associate, White Marsh, Maryland - Boulder, Colorado — November 2020 to May 2022
- Handled consumer sales of phones, computers, printers, TVs, and appliances.
- Excelled in selling Best Buy Total Tech on all available products by building rapport with customers.
- Communicated with outside companies for telecommunication service contracts and warranty repair orders.

Certifications

NASA Open Science Essentials: Open Source Ethics, Open Results, Licensing — Awarded August 2026
NASA Open Science 101: OSF, Source Control, Open Data, Documentation, Development — Awarded August 2026
NASA ARSET Fundamentals of Remote Sensing: GIS, Satellite Sensors, Orbit Characteristics — Awarded August 2026

Skills

Languages: C, C++, Rust, Python, Swift, Java, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks: React.js, Node.js, SwiftUI, SwiftData, MLX, NumPy, Matplotlib, TensorFlow, PyTorch, Pandas
Tools: Git, Docker, AWS, PostgreSQL, Jira, CI/CD, Make, Flex, CUDA, Vulkan, Linux/Unix, Windows, macOS
Hardware and Embedded: Embedded C, Microcontrollers, Raspberry Pi, Software Defined Radio, Soldering, 3D Printing

Extracurricular and Volunteer Work

Boy Scouts of America: Star Scout — Obtained July 2017
Volunteer work: Scouting for Food, Wreaths Across America, State Park/roadway cleanup projects, Astronomy Teacher
